

Matías Fuentes Pérez

Software Engineering Manager | Engineering Team Leadership & Product Delivery

Santiago, Chile | +56 9 9229 1862 | matias.fuentes.p@hotmail.com | linkedin.com/in/matias-fuentes-perez

PROFESSIONAL SUMMARY

Software engineer with 14 years of experience leading engineering teams and technology product development in large-scale organizations, driving results-oriented technology initiatives through OKRs and availability, performance, and quality KPIs. Experienced in people management (technical hiring, capacity planning, career development, delivery planning, technical roadmap definition, and managing teams of up to 21 professionals), combined with a strong technical foundation in microservices architecture and scalable systems. Focused on leadership positions such as Engineering Manager, driving high-performing teams and scalable, secure, high-impact technology products.

EXPERIENCE

Owner [www.tripilove.com](#) - AI Trip Planner — Personal Project

Santiago, Chile | 2026

AI-powered trip planning platform (integrated with Deepseek) that recommends attractions to its users, designed with a microservices architecture using Angular, Node.js, PostgreSQL, and Redis, deployed on a serverless platform on Vercel. Built entirely with Claude Code under a Spec-Driven Development methodology and a human-in-the-loop model, using agents for feature definition, component development, and QA at every deployment.

Software Project Leader — Mercado Libre

Santiago, Chile | Jun 2025 – Nov 2025

Led a team of 8 developers on Mercado Play's touchpoints (+6 million users), defining quarterly planning under Scrum, user stories, and the technical roadmap focused on results through OKRs and availability, performance, and quality KPIs. Defined solutions on a microservices architecture in Java Springboot, implemented observability dashboards in Datadog and Looker, and promoted the use of AI tools (Cursor, Windsurf) along with process automation via VerdiFlow (built on n8n) to increase platform traffic by 13% (approx. 800,000 users) through technical experimentation and user experience optimization.

Technical Leader — Banco Falabella

Santiago, Chile | Mar 2019 – Dec 2024

Grew from Fullstack Developer to Technical Leader, leading quarterly planning, task assignment, and architecture definition for the different businesses within the Banco Falabella holding. Coordinated up to 21 professionals (developers, QAs, and BAs), validating microservices architectures with API Gateway, load balancers, firewalls, and cloud CI/CD pipelines for scalable and secure solutions in both web and mobile. Was responsible for technical hiring, mentoring, onboarding, and the team's career development model.

Projects: “Re-emisión y Delivery de Tarjetas” at Banco Falabella Chile; “Actualización de Cambio Clave PIN” at Banco Falabella; “Onboarding de Clientes” at Banco Falabella Mexico; “Omnichannel” at Banco Falabella Chile.

Development Lead — Everis Chile

Santiago, Chile | Aug 2012 – Mar 2019

Grew from Junior Developer to Development Lead, leading teams on projects for major government clients such as the Ministry of Social Development and the National Customs Service. Defined planning and effort estimation, tracked the development teams' tasks, and coordinated agreements with the functional team on requirements, integration with internal systems, component migrations, and custom development.

Projects: “BIP – Banco Integrado de Proyectos”; “SSYO – Subsistema de Seguridades y Oportunidades”; “Sistema de Fiscalización con enfoque de derechos”; “Mantenimiento Evolutivo SICOGEN II” and “SICOGEN II”.

EDUCATION

Master's Degree in Information Systems and Technology Management — OBS Business School – Universitat de Barcelona (Jan 2025 – Mar 2026, Barcelona, Spain)

Postgraduate Diploma in Software Development Engineering — Universidad de Chile (Jan 2014 – Dec 2014, Santiago, Chile)

Civil Engineering in Computer Science — Universidad Tecnológica de Chile (Jan 2011 – Dec 2011, La Serena, Chile)

Engineering in Computer Science — Universidad Tecnológica de Chile (Jan 2007 – Dec 2010, La Serena, Chile)

TECHNICAL, LEADERSHIP & MANAGEMENT SKILLS

Technical: Solution Architecture, Technical Decision Making, Technical Mentoring, Agile Leadership, Incident Management, OKRs

Leadership & Management: Engineering Leadership, People Management, Hiring & Recruiting, Stakeholder Management, Performance Management, Career Development, Capacity & Headcount Planning

TECHNOLOGIES

Frontend: Angular, TypeScript

Backend: Node.js, NestJS, TypeScript, Java Springboot, REST Services, SOAP Web Services, Redis, Oracle, PostgreSQL, PL/SQL, SQL, OAuth 2.0, JWT

Architecture: Microservices, Event-Driven Architecture, Hexagonal Architecture, API Gateway (Kong), REST API design, SOAP service integration

DevOps / Cloud / Observability: GitLab-CI, Docker, Terraform, Portainer, Cloudflare, GCP, AWS, Datadog, Looker, Fury

AI: Claude Code, Cursor, Windsurf

LANGUAGES

Spanish: Native | English: Advanced (C1)
